FOR IMMEDIATE RELEASE

Frauscher Poland appoints a new Managing Director

Katowice, 17 June 2024: Frauscher Poland appoints Daniel Pytlik as the new Managing Director.

Frauscher Poland has appointed Daniel Pytlik as its new Managing Director to lead strategic growth initiatives and drive innovation across all facets of the business. Mr. Pytlik possesses a wide range of expertise and experience from the Polish railway industry, having worked for Frauscher Poland for over 22 years in various senior positions, including as the Head of Technical and Commercial Departments.

Throughout his tenure with the organisation, Mr. Pytlik has played a pivotal role in shaping and expanding the axle counting business in Poland, driving awareness and interest in the technology. From the outset of Frauscher's entry into this strategically important market, he has been instrumental in driving the growth and development of Frauscher Poland. Likewise, Mr. Pytlik has played a key role in the certification of many Frauscher solutions for the Polish market, including the AZF, Frauscher Axle Counting System ACS2000, Frauscher Advanced Counter FAdC® as well as the Wheel Sensors RSR180 and RSR123.

In his new role as the Managing Director, Mr. Pytlik aims to focus on key strategic initiatives to ensure the sustained, long-term success of Frauscher Poland. Among these is the continuation of close cooperation with system integrators to connect the FAdC® via serial protocols with various systems, including interlockings, level crossings and block line systems. Likewise, Mr. Pytlik wishes to build upon the already established successes of the organisation and further expand Frauscher Poland's presence in the tram market as well as the Warsaw Metro. The introduction of cutting-edge innovations to the Polish railway market will also remain a priority and in this respect, Mr. Pytlik aims to spearhead the propagation of new diagnostic and maintenance technologies which use remote access to vital data, including the cloud-based diagnostic platform, Frauscher Insights.

Frauscher Poland, a subsidiary of Frauscher Sensor Technology, was established 25 years ago, marking a significant milestone in the company's history. From its inception, Frauscher Poland has played vital role in the company's global operations, serving as a key hub for business development, innovation, and customer engagement. Mr. Pytlik has a proven track record of leadership and accomplishment in the railway industry, and his appointment signals commitment of Frauscher Sensor Technology to excellence, innovation, and customer satisfaction.
